

RL1 MEMBERSHIP KIT

Access the Network. Join the Ecosystem. Shape the Market.

RL1 – Regulated Layer One – is Europe’s neutral, cooperative Layer-1 network for regulated digital capital markets. It provides live, compliant DLT infrastructure for tokenized assets, digital money and next-generation settlement, operated as a European cooperative utility for the benefit of its members.

Why RL1?

European capital markets are moving from pilots to production. RL1 solves the key barriers to scale: fragmented networks, missing standards and infrastructure not built for regulated finance. It is designed around **trust, neutrality and autonomy**, giving members a shared, compliant foundation without dependence on a single commercial operator.

Why Become a Member

Becoming a member means joining the ecosystem that is building a **global digital capital market infrastructure**, not merely accessing another technology platform. Members gain a **governance seat** to help shape RL1’s rules, priorities, protocols and future development, **direct access to a network** of leading banks, custodians, market infrastructure providers, validators and regulated capital market participants, connection to live, production-ready, **EVM-compatible infrastructure** built for institutional finance, the ability to deploy real-world use cases such as digital bonds, stablecoins, tokenized funds, on-chain collateral, repo, securities lending and settlement solutions, priority onboarding and dedicated support to move faster from pilot to production, and the opportunity to participate in a **dynamic global ecosystem as the network scales**.

Membership Commitment

Membership commitment: **EUR 550,000**, payable in two tranches: **EUR 275,000 in 2026** and **EUR 225,000 due January 2027**. An extra Aggio will be applied to New Joiners in 2027. In addition, a further capital contribution of up to **EUR 50,000** may become payable in 2028, at the discretion of the Supervisory Board.

Documents Provided

The package consists of the RL1 Network Document covering the cooperative, ecosystem, governance, use cases and roadmap; the Membership Agreement to be signed by the new member and the Statutes.

Admission Checklist

- | | |
|---|--|
| 01 RL1 Management Body Approval | 04 Payment of Subscription Price, Including Premium |
| 02 RL1 Supervisory Board Approval | 05 Confirmation of Share Issuance |
| 03 Signature of the Membership Agreement | 06 Entry in Members’ Index |
